

donderdag 12 maart

10:45 opening words
11:00 - 12:00 Maarten Kole (NIN & UU)
"A hitch in the cable for action potential propagation"
12:00 - 13:30 lunch
13:30 - 14:15 *"The polygamous neuron: adhering to the perfect life partner(s)"*
Anael, Dieudonnee and Yujie
14:15 - 15:00 *"Round up the not-so-usual suspects: Neurofilaments"*
Max, Lena and Amelie
coffee break
15:30 - 16:15 *"Axonal Branching: Developmental and Functional Aspects"*
Charles, Arne, Marko and Mustafa
16:15 - 17:00 techniques
17:00 - 18:00 workshops + masterstudenten special
18:00 - 19:00 dinner
20:00 - 21:00 workshop presentaties

vrijdag 13 maart

08:00 - 09:00 breakfast
09:00-09:45 *"Reasons to Hibernate and to Investigate"*
Marleen, Catia and Anne
10:15 - 11:30 rondleiding slot Zuylen
(please come by bike if possible)
12:00 - 13:30 lunch
13:30 - 14:30
Joris de Wit (Leuven)
"Sorting out synaptic receptor interactions in circuit development"
coffee break
15:00 - 15:45 *"Local protein synthesis in neurons: local action, global impact"*
Harold, Hai Yin and Petra
